

ARCTIC HEAT

SNOW & ICE MELT

DESCRIPTION:

This new unique formula provides a faster, safer, more effective method of melting snow and ice in temperatures from 32° F. to 0° F. Coated with Liquid Heat that melts to -25 F to provide faster melting. Apply using any fertilizer spreader. The uniform particle size and blue coloring increases coverage and visibility while using less product. Special inhibitors work to better protect vegetation, concrete, metal and leather. The anti-caking agent reduces caking in storage, extends shelf life and provides ease of application. This product is also non-tracking, resists staining of carpets and floors and is pet friendly.

WARRANTY:

This product will not harm concrete if used as directed and if the user maintains good sidewalk maintenance practices and if the concrete is of good quality as determined by the American Concrete Institute (ACI) specification numbers 302.1R, 308, and American Standard Testing Methods (ASTM) specification number C94.

DIRECTIONS:

2 to 4 ounces of product per square yard for each 1/4 inch of ice.

CAUTIONS:

Flaking or spalling may occur by using any ice melting agent on poor quality concrete. Ice melting agents should not be used on concrete less than 1 year old, chipped or cracked concrete, exposed aggregate, pre-cast concrete steps and masonry steps or walks. Should you choose to apply this product on the above described surfaces you do so at your own risk. **External:** Wash with soap and water. Call physician if irritation persists. **Internal:** Give large quantities of milk or water. Call a physician.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente. **TO THE USER:** If you cannot read English, do not use this product until this label has been fully explained to you.
