

# ALL SPORT LAUNDRY DETERGENT

## ALL SPORT LAUNDRY DETERGENT...

is fortified with an enzyme that targets grass, dirt, & blood. It also has a low temperature bleach activator. Safe on all washable colorfast fabrics including Dacron & Polyester blends. **DO NOT** use on natural silk or wool. **DO NOT USE CHLORINE BLEACH.**

**DIRECTIONS:** Use 1oz of detergent per 10# load of laundry. The use of bleach is seldom necessary unless fabrics are badly stained. Effective in cold water for washing fabrics requiring low temperature laundering. It can also be safely used in warm or hot water. Approved for H/E machines.

## SAFETY ON METALS:

Safe on all metals and rubber found on commercial laundry equipment.

## STORAGE AND SPILL SAFETY:

Store in cool, dry place. **KEEP OUT OF REACH OF CHILDREN**

## LABEL CARE:

Always follow manufacturers instructions regarding the care of all washable fabrics. Some fabrics may change color during laundering due to color variants in fabrics. Be sure to check for colorfastness before laundering.

**PRE-SOAK:** First check for colorfastness. If garment passes the test, soak up to 30 minutes using 1 scoop of All Sport Laundry Detergent per 1 gallon of water. Then wash as normal.

**PRE-TREAT:** For best results treat with All Sport Laundry Detergent as soon as stain occurs. Rinse the stained area and apply a paste of detergent and water. Rub gently and wash as usual.

**CAUTIONS:** Avoid contact with eyes. In case of eye contact, flush with for at least 15 minutes. If swallowed, drink a glassful of water and call physician.
