

CAR WASH DRYING AGENT CONCENTRATE

Enjuage y Cera Concentrado para Autos

DESCRIPTION:

This product was developed to save money and shipping costs for our car wash customers. By eliminating the water from a 55 gallon drum of our regular product, you end up with 5 gallons of active ingredients. By adding this 5 gallons (9%) of active ingredients to 50 gallons (91%) of water, you are actually making your own 55 gallon drum of our regular product.

CAUTIONS:

Do not take internally. If ingested, drink large amounts of water and consult a physician. For eye or skin contact, flush area with clear water for 15 minutes. Keep product from freezing. If this product is stored in cold areas, it may separate or thicken. This will not harm the performance. Bring product to room temperature and stir thoroughly before use.

Keep container sealed when not in use. Triple rinse empty container before disposal in an authorized landfill site.

DIRECTIONS:

First, mix one 5 gallon bucket of product with 50 gallons of water and mix until solution clears. Then dilute this product as follows:

Conveyor Drying Agent Arch: Apply to vehicle at a final dilution rate of 250-300 parts water to one part product.

Rollover Drying Agent Cycle: Apply to vehicle at a final dilution rate of 300-350 parts water to one part product.

High-Pressure In-Bay spray Wax Cycle: Apply to vehicle at a final dilution rate of 300-350 parts water to one part product.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

TO THE USER: If you cannot read English, do not use this product until this label has been fully explained to you.
