

# CONCRETE TRUCK CLEANER KICK ACID

Patee El Ácido Cemento Camión Limpiador

## DESCRIPTION:

Concrete Truck Cleaner KICK ACID is a new chemical formula that cleans like an acid with the safety of a dish soap. This product is a liquid acid alternative with no odors or fumes. It attacks the Portland in cement, completely dissolving the hardened cement to a mushy substance that will completely rinse off with high pressure and cold water. Concrete Truck Cleaner KICK ACID is non-corrosive, non-fuming, 100% biodegradable and non-hazardous to equipment. It contains no sulfuric acid, muriatic acid, hydrochloric acid or phosphoric acid.

## DIRECTIONS:

Never wet surface before applying. Saturate areas of household concrete to be removed with Concrete Truck Cleaner KICK ACID. Surface area will turn white on contact and then darker. If product evaporates a white residue will appear. DO NOT RINSE. Reapply Concrete Truck Cleaner KICK ACID to reactivate as needed until concrete has softened to a mush. Allow product to penetrate until cement softens and releases from surface. Rinse with cold water / high pressure washer. Extra thick build up may require multiple applications.

**PRECAUTION: AL USARIO:** Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

**TO THE USER:** If you cannot read English, do not use this product until this label has been fully explained to you.
