

# CONCRETE TRUCK CLEANER SUPER

## DESCRIPTION:

This product was developed first, with safety in mind for the people using it, and second for the safety of the surfaces being cleaned. This product is very unique in the fact that the acid used in it has been buffered. This means that it has very little odor and no harmful vapor. At the same time it has no harmful effect on human skin or the painted surfaces on concrete trucks. Even though this product has been found to be safe to the users, at the same time it also has the benefit of being a very aggressive concrete truck cleaner without the harmful vapor and damage to your expensive equipment.

## DIRECTIONS:

Depending on degree of scale or concrete to be dissolved, dilute product concentrate with water at a rate of 1:4 for severe conditions, and up to 1:10 for moderate conditions. Apply to surface and allow solution to penetrate and dissolve deposits. Scrub off and rinse thoroughly with clear water.

## CAUTIONS:

Product contains buffered hydrochloric acid. Do not ingest. If this does occur, drink large amounts of water followed by milk of magnesia or a solution of water and baking soda. Follow with water beaten with egg whites or vegetable oil. Call a physician immediately. For eye contact, flush with water for 15 minutes. Get prompt medical attention. For skin contact, wash area with soap and water. Triple rinse empty container with water before discarding in an authorized landfill site. Use appropriate safety equipment during application.

**NOTE:** For optimum safety and protection to personnel, always wear protective clothing and equipment during application procedure.

**PRECAUTION: AL USARIO:** Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

**TO THE USER:** If you cannot read English, do not use this product until this label has been fully explained to you.
