

DRAIN SEALER

(Environmentally Safe)

DESCRIPTION:

Drain Sealer is a uniquely formulated, environmentally friendly sealer designed for use in waterless no flush urinals. Drain Sealer is a non-hazardous trap sealer that is lighter than water and urine, which keeps the seal in place. This product creates a non-soluble seal of deodorizing liquid in the trap. It also prevents unwanted vapors from escaping into the air. It has a very pleasant "Cherry" fragrance for long lasting odor relief. Drain Sealer works well for treating dried out traps, keeping them wet and odor free.

CAUTIONS:

Avoid contact with skin, eyes and mucous membranes. Since the vapor may be irritating, use only in a well ventilated area. Prolonged or repeated contact may cause allergic reaction. Keep product from freezing. In case of contact with skin or eyes, flush with water for 15 minutes. For eyes get prompt medical attention. If swallowed, give 1 or 2 glasses of water or milk and contact a physician immediately.

DIRECTIONS:

Waterless Urinals: Add 3 ounces of Drain Sealer directly into the urinal. When deodorizing no longer takes place, add another 3 ounces.

Dried Out Drains: Add 1 gallon of water, then add Drain Sealer as follows:

- **2" Drains:** Add 3 ounces.
- **4" Drains:** Add 6 ounces.
- **Over 4" Drains:** Add 9 ounces.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

TO THE USER: If you cannot read English, do not use this product until this label has been fully explained to you.
