

EYE BLACK REMOVER

DESCRIPTION:

Eye Black Remover is a Ready-To-Use product that quickly and effectively removes eye black, cosmetics, pine tar, and other stubborn oil base stains from linens and uniforms. This product was developed for use in Minor League Spring Training camps to remove the "Gator Eyes" product specifically.

Just wet the stain, briskly rub the material together, and wash. EBR quickly loosens the soil with its unique, soil release properties, then while suspending the soil, causes it to wash away with no residue left behind.

DIRECTIONS:

Shake well before using. Thoroughly wet the stain with EBR. Rub the stained spot briskly together, wash as usual.

CAUTIONS:

Wear Gloves while handling this product. Its unique citrus, solvent blend may cause dryness or chapping of hands with use.

Use only in well ventilated areas. **Avoid contact with skin & eyes.** If contact occurs, flush with water for 15 minutes. Seek prompt medical attention. Do not ingest. If swallowed give one to two glasses of water followed by fruit juice. Call physician immediately. Triple rinse empty container with water before disposal in an authorized landfill site
