

PEROXIDE SYNERGY

DESCRIPTION:

Peroxide Synergy is a very powerful cleaner that is hydrogen peroxide based, completely safe and easy to use. This product replaces acids and acid blend cleaners to take care of a large variety of cleaning applications. It is ACID FREE (low pH), 100% biodegradable, non-toxic, safe for the environment, non-flammable and user friendly. This product quickly removes stubborn calcium deposits on shower walls and fixtures, soap scum, mildew, grease and other difficult to remove soils. Achieve a fresh healthy clean without the harshness of bleach. Peroxide Synergy uses a hydrogen peroxide formula that releases thousands of micro bubbles to dissolve grease and soap scum. No gloves or mask needed to clean. Use this product on most water washable restroom surfaces.

REMOVES:

- Rust
- Soap Scum
- Mildew Stains
- Calcium Deposits
- Lime Build Up
- Grease

CAUTIONS:

May cause mild irritation. Keep container tightly closed when not in use.

DIRECTIONS:

Peroxide Synergy is a very concentrated product that can be diluted up to 10:1 with water for various washroom cleaning applications. For light duty, daily shower and fixture cleaning, suggested dilution is 10:1. For medium duty, weekly cleaning of showers, stalls and fixtures that show evidence of calcium deposits use at 8:1. For rust stains in toilets or heavy calcium build up use 3:1 or straight if needed.

BENEFITS:

Hydrogen Peroxide • Excellent environmental profile • Pleasant citrus fragrance • Odor eating properties • Excellent cleaning performance • 100% Biodegradable • User friendly

USE ON:

- Aluminum
- Stainless Steel
- Tile
- Fiberglass
- Glass
- Porcelain

Corrosive to unsealed grout, masonry, stone. Safe to use on all sealed or polished stone, marble, etc.
