

# TOILET DEODORANT

## DESCRIPTION:

Brody Chemical's NEW & Improved Toilet Deodorant is formulated for dissolving, deodorizing and sanitizing of human waste in portable toilet systems. This formula is especially useful in treating such waste containing systems in which the human waste has to be stored in a toilet holding tank for prolonged periods of time. This product is recommended for all chemical or storage toilets (outhouses) as well as all fresh water flush toilets on aircraft, buses, motorhomes, boats, and recreational vehicles. Recent developments in transportation and environmental regulation have made it so that formaldehyde-like anti-microbial materials are NO LONGER ALLOWED to be discharged into human waste dumps. This product does not contain either Formaldehyde or Formaldehyde-like antimicrobial materials. Toilet Deodorant will not freeze in winter conditions.

## CAUTIONS:

Avoid contact with skin, eyes and mucous membranes. Since the vapor may be irritating, use only in a well ventilated area. Prolonged or repeated contact may cause allergic reaction. In case of contact with skin or eyes, flush with water for 15 minutes. For eyes get prompt medical attention. If swallowed, give 1 or 2 glasses of water or milk and contact a physician immediately.

## DIRECTIONS:

**Motor Homes:** Use 2 oz. of Toilet Deodorant per 5 gallons of waste.

**Houseboats:** Pour 6-8 oz. of Toilet Deodorant into a 20-25 gallon holding tank. Use 12-16 oz. for a 40-50 gallon holding tank.

**Aircraft/Commercial Buses:** Service toilet according to manufacturer's recommendations: Use 2 oz. of Toilet Deodorant per 5 gallons of waste. May be used with chemical pre-mix systems or added directly to toilet.

**Portable Toilets:** Pour 6-8 oz. of Toilet Deodorant into an empty tank to deodorize a 20-25 gallon waste holding tank.

**Vault Toilets:** Pour 2 quarts of Toilet Deodorant into a freshly pumped vault. Add a pint to a quart, as needed, as the tank begins to fill.
