ITEM # 3060

SUB-ZERO SNOW & ICE MELT

Derretidor De Nieve Y Hielo Súper

DESCRIPTION:

Sub-Zero Snow and Ice Melt is a blend of Sodium Chloride (salt), Calcium Chloride (exothermic heat), Magnesium Chloride and Sodium Silicate (corrosion inhibitor). This product contains 25% Calcium Chloride which is the raw ingredient that gets “hot”. Sub-Zero Snow and Ice Melt will melt snow and ice down to approximately -25° F. Covers 99% of winter morning in Utah, Colorado, Montana, Idaho and Wyoming. Available in 50 pound, 100 pound, 500 pound and 2,000 pound containers.

TO EASE SNOW REMOVAL:

Apply product over surface at the beginning of a snow storm if possible, at a rate of approximately 1-2 pounds per 500 square feet.

DIRECTIONS:

Apply 1-2 pounds of product per 200-500 square feet of surface, depending on ice and snow conditions. Reduce damage to concrete and stone surfaces when used according to directions. Special inhibitors and anti-caking agents are used to insure product is free-flowing and will spread at a uniform rate. Our product leaves no residue and is non-tracking when used at the recommended dosage rates.

RECOMMENDED FOR:

This product is recommended for use at convention centers, public meeting places, industrial plants, hotels, motels, schools, churches, retailers, restaurants, banks, parking lots, institutions, office buildings, residences, etc.
