

# DISHMACHINE DELIMER

Sirva Máquina Delimer

## DESCRIPTION:

This product is a concentrated blend of inorganic acids, detergents, wetting agents and rinse conditioners. It will dissolve and remove alkaline residues from stainless steel dishwashing machines and all spray nozzles inside of the machine. It is very important to clean the inside of a dishwashing machine on a regular basis to insure proper flow of the detergent, rinse and sanitizer. Clogged spray nozzles will greatly decrease the efficiency of the machine and dishwash detergents which prevents your dishes from being sparkling clean.

## CAUTIONS:

Product contains inorganic acids, avoid contact with eyes, skin or clothing. It is advisable to wear protective clothing during application procedure. If eyes or skin are affected, flush with copious amounts of water for 15 minutes. Contact physician. If ingested, drink large amounts of milk or water beaten with egg whites. Contact physician.

## DIRECTIONS:

To clean the inside of a commercial dishwashing machine: Pour one gallon of product directly into dishmachine, then tightly close machine and run a full wash cycle.

## BENEFITS:

This product is biodegradable and also non-flammable, it has low toxicity, no harsh fumes or vapors, free rinsing and is highly concentrated for maximum economy. It has been authorized by the USDA for use in all departments of federally inspected meat, poultry and food processing establishments when used in accordance with label instructions.

**PRECAUTION: AL USARIO:** Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.
