

SAFETY SOAP

(Safe on Polished Aluminum)

DESCRIPTION:

Safety Soap is a premium liquid truck and trailer soap and degreaser formulated to remove exhaust deposits, road film and bug residues from painted vehicle surfaces in one application, without brushing.

Safety Soap contains synthetic, biodegradable detergents that rinse completely to eliminate streaking. It is 100% biodegradable and contains no caustics, phosphates, acids or solvents. Safe on paint and glass and will leave polished aluminum surfaces with a nice shiny finish. This product is also great for using as a presoak, debugger, wheel cleaning, degreasing and neutralizing acid on concrete trucks.

CAUTIONS:

Do not store in freezing temperatures. Do not ingest. For eye or skin contact, flush with copious amounts of water. If ingested, drink large quantities of water and acid fruit juices. Triple rinse empty container before disposal in an authorized landfill site.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

TO THE USER: If you cannot read English, do not use this product until this label has been fully explained to you.

DIRECTIONS:

Mix 30:1 for Heavy soil without brushing or mix 50:1 for light cleaning or when using brush. For best results apply at high temperature (140° - 160° F.) and high pressure (above 600 psi), to a dry surface. Always rinse with a high pressure water.

AUTOMATIC TRUCK WASHES

Prep Gun: Mix 128:1 apply to vehicle allowing a maximum 15 to 20 seconds before detergent application.

Touchless Systems: Mix 128:1 apply to vehicle through high pressure spray equipment. Follow immediately with acid detergent.

Wheel Wash: Mix 30:1 Apply to dry wheels. Allow 10 to 20 seconds contact time, agitate as necessary then rinse thoroughly. Rinse immediately from painted surfaces to eliminate possible discoloration.
