

DADSON'S TRUCK WASH POWDER

DESCRIPTION:

This product is a mildly alkaline, free-flowing powder, designed for simplified washing of automobiles and transportation equipment. This product is safe for use on all metals, paints, plastics, and rubber products. It is extremely free rinsing and is well supplied with sequestering agents so that it may be used with water of any hardness. This product is the ideal material for the quick, simple, economical method for efficiently washing trucks, trailers, cars and buses. It may be used not only as an exterior cleaner, but also for cleaning the insides of trucks, vans and for in-place engine cleaning.

CAUTIONS:

Avoid contact with skin, eyes and clothing by use of protective clothing. External-Skin and eyes, flush with water for 15 minutes. Internal-Drink mild solution of vinegar and seek medical attention. Keep container and inner lining sealed when not in use. Store in a dry area. Triple rinse and dispose of empty container in authorized landfill site.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

TO THE USER: If you cannot read English, do not use this product until this label has been fully explained to you.

DIRECTIONS:

This product is normally used in water solutions at a concentration of two to four pounds per fifty gallons. The weaker solutions are used for all normal washing. For extremely dirty trucks, three pounds per fifty gallons of water is recommended; for engine cleaning, use four pounds per fifty gallons.

Spray the entire vehicle, making sure all surfaces are completely wetted. Allow to set two or three minutes and follow with a pressure water rinse. In most cases, no hand rubbing will be needed to remove the soil. After rinsing, the vehicle is allowed to drip dry. No wiping is needed to avoid water spotting.
