ADDITIONAL MARKETING STATEMENTS:

- Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by Influenza A virus*. This product, is a broad-spectrum hard surface disinfectant that has been shown to be effective against Influenza A2/Japan virus* and is expected to inactivate all influenza A viruses* including Pandemic 2009 H1N1 (formerly called "swine flu").
- This product effectively controls the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces.
- This product demonstrates effective fungicidal activity against pathogenic fungi in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities and on clean hard, non-porous surfaces commonly contacted by bare feet.
- Acts as a disinfectant on hard, non-porous environmental surfaces such as toilet seats, fixtures, glazed tile, wash bowls, shower stalls, walls, finished woodwork, countertops, kitchen countertops, tables and outside surfaces of appliances.
- The easy way to clean, disinfect and deodorize. Cleans and disinfects without scouring or scratching. Use in nursery and sickrooms, for garbage and diaper pails, for any washable hard, non-porous environmental surface that needs disinfecting as you clean.

ADDITIONAL DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Kills HIV on Pre-Cleaned Environmental Surfaces Previously Soiled with Blood/Body Fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus* Type 1 (HIV) (associated with AIDS):

Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids:

Personal Protection: When handling items soiled with blood or body fluids, use barrier protection: disposable latex gloves, gowns, masks and eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

Contact Time: Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until surface is wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of ten minutes prior to wiping.

Disposal of Infectious Materials: Autoclave blood and other body fluids and disposed of according to federal, state and local regulations for infectious waste disposal.
