### Additional Marketing statements:

-This product is a ready-to-use, non-abrasive germicidal disinfectant cleaner and deodorant, designed for general cleaning, disinfecting, deodorizing and controlling mold and mildew on hard, non-porous inanimate surfaces. Quickly removes dirt, grime, mold, mildew and other common soils found in hospitals, nursing homes, schools and colleges, day care centers, medical offices, funeral homes, veterinary clinics, pet shops, equine farms, animal life science laboratories, hotels, motels, public restrooms, food processing plants, and food service establishments (restaurants). Use it on all hard, non-porous inanimate surfaces.

-This product can be used to clean food contact surfaces as well as the rest room and general areas. Quickly removes dirt, grime and food soils in food preparation and processing areas. Its non-abrasive formula will not harm or scratch surfaces. It cleans, disinfects and eliminates odors leaving surfaces smelling clean and fresh. Use where odors are a problem.

-This product removes dirt, grime, mold, mildew, blood, urine, fecal matter and other common soils found in animal housing facilities, livestock, swine or poultry facilities, grooming facilities, farms, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It eliminates odors leaving surfaces smelling clean and fresh.

.\*This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

### ADDITIONAL DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**For use as a Non-Acid Cleaner/ Disinfectant for Toilet Bowls and Urinals:** Pre-clean heavily soiled areas. With swab applicator, remove water from bowl by forcing water over trap. Press swab applicator against side of bowl to remove excess water. Apply this product to swab applicator, cloth, mop, sponge or directly to surface. Swab entire surface to remain wet for 3 minutes. For Hepatitis A, let surface remain wet for 10 minutes. Flush toilet or urinal and rinse swab applicator thoroughly.

**For use in Food Processing Plants:** Before using this product in food processing areas, food products and packaging materials must be removed from the room or carefully protected. Spray evenly over surface. Be sure to wet all surfaces thoroughly. Let this product remain on surface for 3 minutes. For Hepatitis A, let surface remain wet for 10 minutes. Wipe with clean cloth, sponge or paper towel. For heavily soiled areas, thoroughly clean surface prior to disinfecting. When disinfecting food contact surfaces such as kitchen counters and tables used for food preparation, appliances and sinks, then thoroughly rinse surfaces with potable water. This product must not be used to clean the following surfaces: utensils, glassware, and dishes.
