

DEFENDER ES System

Surface Cleaning Wipes

A Single Wipe Dispensing System to Prevent Cross Contamination

Powered by DisinfectTech technology to effectively clean and disinfect surfaces. Compatible and stable with Defender Sporicidal, Cleaner and Disinfectant

Defender ES System is engineered and designed to help achieve maximum cleaning results, used in conjunction with optimized chemistries to disinfect all surfaces.

- Maintains target disinfection and sanitization concentrations
- Proprietary textured pattern helps maximize cleaning effectiveness
- Cost effective solution to daily and discharge surface cleaning
- 11" x 11" wipe to handle large surfaces

Defender, the First Disinfectant with an EPA Registered Biofilm Claim

- ✓ One Product for your entire facility
- ✓ All in one EPA-registered Sporicidal Disinfectant, Cleaner & Sanitizer
- ✓ Clinically effective even in the presence of organic soil (unlike bleach)
- ✓ Safe for employees and patients
- ✓ Non-corrosive, non-irritating, mild odor
- ✓ Formulated to penetrate biofilm
- ✓ Kills 99.9999% of bacteria* in biofilms on a hard, non-porous surface.

*Pseudomonas aeruginosa and Staphylococcus aureus
