

ICE BEATER "CLEAR"

Derretidor De Hielo

DESCRIPTION:

Brody Chemical manufactures many different blends of snow and ice melters. Most of these ice melters contain a blue dye which makes the product much more visible against the snow and the ice. We also manufacture one, Ice Beater "Clear", that contains no blue dye. This product is the exact same formula as our Ice Beater except without the dye. This product is recommended for areas that have light-colored carpet just inside the entry ways.

DIRECTIONS:

Use 2 to 4 ounces of this product per square yard for each 1/4 inch of ice.

WARRANTY:

This product will not harm concrete if used as directed and if the user maintains good sidewalk maintenance practices and if the concrete is of good quality as determined by the American Concrete Institute (ACI) specification numbers 302.1R, 308, and American Standard Testing Methods (ASTM) specification number C94.

DIRECTIONS:

Use 2 to 4 ounces of this product per square yard for each 1/4 inch of ice.

CAUTIONS:

Flaking or spalling may occur by using any ice melting agent on poor quality concrete. Ice melting agents should not be used on concrete less than 1 year old, chipped or cracked concrete, exposed aggregate, pre-cast concrete steps and masonry steps or walks. Should you choose to apply this product on the above described surfaces you do so at your own risk. **External:** Wash with soap and water. Call a physician if irritation persists. **Internal:** Give large quantities of milk or water. Call a physician.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente. **TO THE USER:** If you cannot read English, do not use this product until this label has been fully explained to you.
