BRODY
CHEMICAL

Keep your trucks clean and sparkling with Brody Chemical's concrete truck cleaners. Designed for foremen, managers, supervisors, and drivers, Brody Chemical provides the complete solution including superior chemicals, expert guidance, spray equipment, custom installation, and reliable service. With decades of experience with ready-mix plants, batch plants, precast, and shops, Brody Chemical formulates the industry's most effective cleaning products to dissolve and remove concrete while also being safe on paint and decals.

ALUM A BRIGHT – AVAILABLE IN THREE CONCENTRATIONS

An acid-based aluminum cleaner formulated to clean all types of surfaces without scrubbing. Alum A Bright features a spray and rinse process, penetrating deep into crevices to rinse away oxidation and accumulated dirt. Designed for industrial type equipment, aluminum tanks of all types, truck parts, painted surfaces and heavy-duty cleaning of aluminum mag wheels. Spot test prior to application to ensure desired effect. Alum A Bright does an amazing job at brightening up the drums on your trucks. Alum A Bright brings white paint back to its original glossy shine. It will remove the yellowing caused by oxidation and repeated use of concrete removers. **DO NOT USE ON POLISHED ALUMINUM.** Contains Hydrofluoric Acid.

- Alum A Bright Super – Dilutes 40-50:1
- Alum A Bright – Dilutes 20-30:1
- Alum A Bright Plus – Dilutes 10-20:1

ALUMINUM BRIGHTENER 2 – AVAILABLE IN TWO CONCENTRATIONS

Aluminum Brightener 2 is for those customers that do not want to use Hydrofluoric acid. It is very concentrated and formulated to clean all types of surfaces without scrubbing. Designed for industrial type equipment, aluminum tanks of all types, truck parts, painted surfaces and heavy-duty cleaning of aluminum mag wheels. Spot test prior to application to ensure desired effect. **DO NOT USE ON POLISHED ALUMINUM.**

- Aluminum Brightener 2 –
Can be diluted 20-30:1 with water
- Aluminum Brightener 2 Plus –
Can be diluted 10-20:1 with water

CITRA SAFE

Citra Safe eliminates rust & corrosion damage to your fleet by completely removing the corrosive white salts residue from your fleet caused by salt, salt brine and liquid chlorides. Our product is a synergistic blend of surfactants, emulsifying agents, chelating agents and acids. This product is designed for fast and effective removal of road film, oxidation and corrosion from aluminum, stainless steel, brass, steel, copper and painted surfaces. Without the use of Hydrofluoric Acid this product requires no scrubbing, buffing or polishing - quick chemical action penetrates and removes road film, calcium (water) deposits and diesel smoke deposits from aluminum trailers, trucks and cars in just 2-3 minutes. Apply this product with acid proof equipment. Do not allow solution to dry on surface. This product should be used as the first step of a 2-step system. Safe on polished aluminum & Bio-degradable. Dilutes up to 50:1.

CONCRETE REMOVER – AVAILABLE IN TWO CONCENTRATIONS

The most economical acid to clean your concrete trucks. This product contains Hydrochloric Acid combined with foaming agents, wetting agents and corrosion inhibitors. Can be used through a foaming system or bucket and brush application.

- Concrete Remover –
Can be used straight or diluted 2:1
- Concrete Remover Plus –
Can be used straight or diluted 1:1

CONCRETE TRUCK CLEANER – AVAILABLE IN THREE CONCENTRATIONS

This product was developed first, with safety in mind for the people using it, and second for the safety of the surfaces being cleaned. This product is unique in the fact that the acid used in it has been buffered. This means that it has very little odor and no harmful vapor. At the same time, it has no harmful effect on human skin or the painted

surfaces on concrete trucks. Even though this product has been found to be safe to the users, it also has the benefit of being a very aggressive concrete truck cleaner without the harmful vapor and damage to your expensive equipment. This is the best product in the industry for fast and effective concrete removal. Can be used through a foaming system or can be applied with a bucket and brush application.

- Concrete Truck Cleaner Super – Can be used straight or may be diluted up to 4:1
- Concrete Truck Cleaner – Can be used straight or may be diluted up to 2:1
- Concrete Truck Cleaner Plus – Can be used straight or may be diluted up to 2:1

CONCRETE TRUCK CLEANER KICK ACID – AVAILABLE IN TWO CONCENTRATIONS

Concrete Truck Cleaner KICK ACID is a new chemical formula that cleans like an acid with the safety of a dish soap. This product is a liquid acid alternative with no odors or fumes. It attacks the Portland in concrete, completely dissolving the hardened concrete to a mushy substance that will completely rinse off with high pressure and cold water. Concrete Truck Cleaner KICK ACID is non-corrosive, non-fuming, 100% biodegradable and non-hazardous to equipment. It contains no sulfuric acid, muriatic acid, hydrochloric acid or phosphoric acid. Chemical contact time is necessary to achieve the best results. Most customers will coat the concrete trucks in the evening when they come back and then rinse off in the morning. Can be used through a foaming system or bucket and brush application.

- Concrete Truck Cleaner Kick Acid – Can be used straight or may be diluted up to 4:1
- Concrete Truck Cleaner Kick Acid Plus – Can be used straight or may be diluted up to 2:1

TNT LIQUID

TNT Liquid is a premium liquid truck and trailer wash formulated to remove exhaust deposits, road film and bug residues from painted vehicle surfaces in one application, without brushing. TNT Liquid contains synthetic, biodegradable detergents that rinse completely to eliminate streaking. It is 100% biodegradable and contains no caustics, phosphates, acids or solvents. Safe on paint and

glass and will leave polished aluminum surfaces with a nice shiny finish. This is an excellent neutralizer for all your low ph. concrete remover products. Excellent choice in a two-product dilution system. Dilutes up to 20:1 with water.

INDUSTRIAL DEGREASER

This product is a heavy-duty water-soluble degreaser. It is safe and effective on all washable surfaces for removing soils such as, carbon, creosote, dyes, grease, ink, mildew, oil and wax. It contains a rust inhibitor to retard corrosion of metals. It is fireproof, contains no acids and gives off no dangerous toxic fumes. Biodegradable and environmentally friendly. It incorporates surfactants and emulsifiers to penetrate, dissolve and flush away even the most tenacious grease and grime. Dilutes up to 20:1 with water.

ACID RESISTANT TRUCK BRUSH 10"

PLASTIC COATED METAL HANDLE 60"

Wall Mounted Foam Unit

For concentrate products

Draws and dilutes product at ratios of 1:1 to 16:1

Regulates incoming water pressure to ensure consistent foam quality

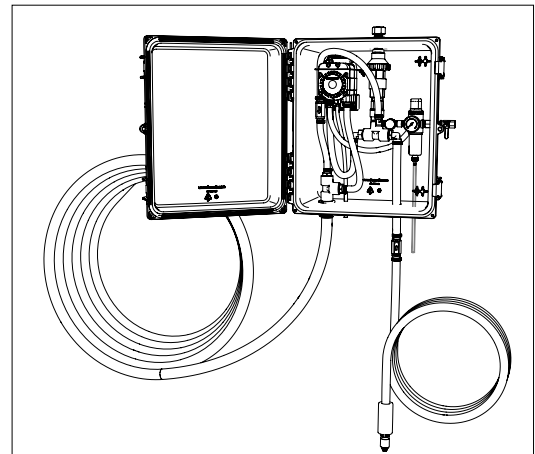

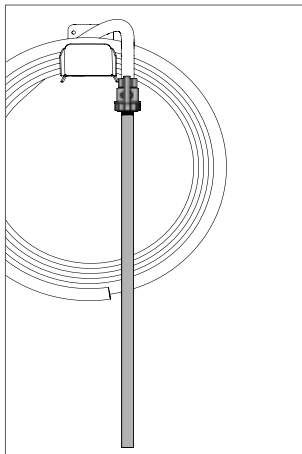

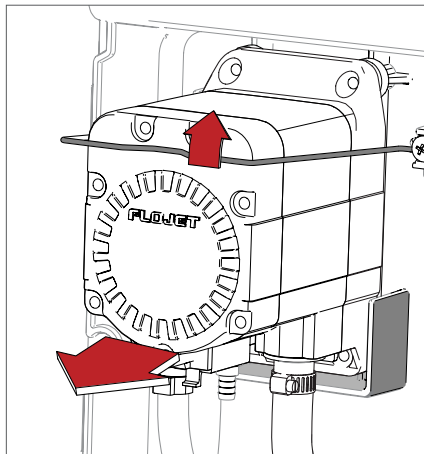

Quick-change pump

32 inch polypropylene wand for extended foam throw

All-poly fluid fittings

Item Number: FI-WC-1 1AP

Wall Mounted Foam Unit

For concentrate products

Draws and dilutes product at ratios of 1:1 to 16:1

Switch between 2 products using 3-way ball valve

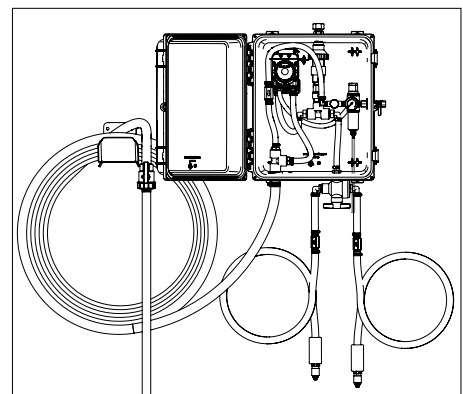

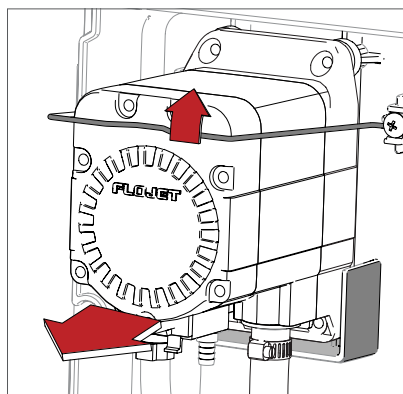

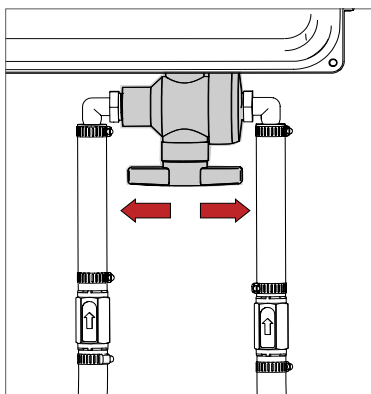

Regulates incoming water pressure to ensure consistent foam quality

Quick-change pump

32 inch polypropylene wand for extended foam throw

All-poly fluid fittings

Item Number: FI-WC-11AP2

Wall Mounted Foam Unit

For pre-mix products

Draws from pre-mixed solution

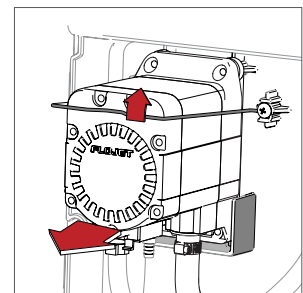

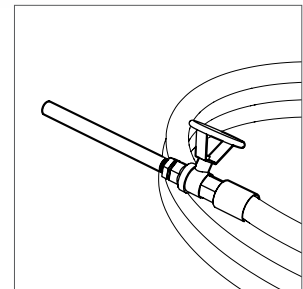

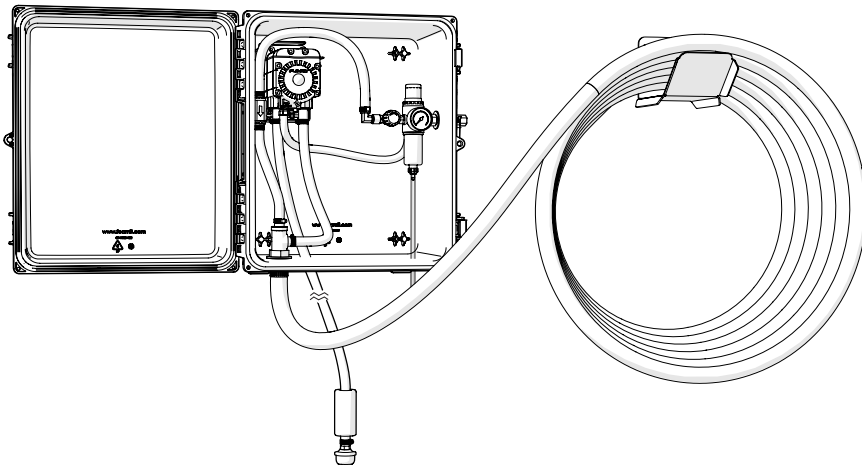

Quick-change pump

Stainless steel ball valve and wand

Stainless steel fluid fittings

Item Number: FI-WALL

Pump-Up Foam Unit

5 liters

Also available in 1.3 liters

Compact unit with manual pump

Maximum portability for small jobs
and spot cleaning

Comfortable grip handle with trigger
for quick on/off control

Ability to switch between short and
long wand assembly

Air gauge and pressure relief valve
for safety

Viton seals for chemical compatibility

Natural color tank for easy visibility
of product levels

Product level fill markings in gallons
and liters

Item Number: F5.0L
